Dear Sir/Madam

It gives me immense pleasure to inform you that the Department of Community Medicine, Integral Institute of Medical Sciences & Research, Lucknow, UP is organizing the 5th National Conference of Consortium Against Rabies on the 4th & 5th of March 2017. The theme of this year's conference is "Educate, Vaccinate & Eliminate", that highlights two crucial actions that communities need to undertake to prevent rabies. It also reflects the global target to eliminate all human deaths from dog mediated rabies by 2030. . Human mortality due to Rabies is highest in Asia, with highest incidence and deaths reported from India. Deaths are scattered and never amount to the kind of crisis that get epidemics top billing and hence the disease is neglected. On occasion of the World Rabies Day 24 medical colleges across UP & Uttarakhand joined hands to raise awareness on Rabies. (Report enclosed). There is a need for all stake holders Physicians, Veterinarian's, Pet owners and pharmaceutical companies to join hands to increase awareness and contribute towards the goal of elimination of dog mediated rabies by 2030

The conference is expected to have around 300 delegates which include Faculty members & Post Graduate medical students, Researchers, Government officials, NGO, public health experts, consultants, private practitioners from across India. The conference will also be a host to some eminent personalities in public health from different parts of the country. Leading private practitioners and Veterinarian's in Lucknow and nearby cities, pet owners will also be a part of the event. The conference offers an excellent opportunity for different companies, organizations etc. to participate and share the very latest & new ideas, technology, products and services in front of delegates from all over India.

Exhibition packages are available in 3 categories for those who wish to advertise their products. A range of advertising opportunities are available for the Conference. Don't miss this opportunity to take part in the conference. We are open to discuss creative ideas for the sponsorship which can help the professionals as well as the company interested in. Please call or mail us to discuss your ideas, objective and budget.
