

Annual Report IIMSR 2017-18

Brief History of IIMSR

Integral Institute of Medical Sciences and Research (IIMS&R) is affiliated to Integral University, Lucknow and is approved by Government of India and Medical Council of India, New Delhi. IIMS&R is a hi-tech 500+ bedded hospital, fully furnished with advanced facilities and managed by highly qualified medical staff. It has 22 departments besides Emergency & Trauma Care Unit.

The first batch of hundred students has completed MBBS and is doing internship. Currently we have applied for Post Graduate (MD/MS) courses in some pre & Para clinical departments. It has one of the best medical facilities and diagnostics in Lucknow at subsidized rates. The charity work done by the hospital benefits the poor section of the society. Free consultation and free medicine are provided. The registration fee for a patient is a token amount of Re. 1/- valid for a period of 15 days.

The teaching and training program of the institute is managed by following teachers/faculty/staff:-

Professor	:	21	Associate Professor	:	29
Assistant Professor	:	39	Tutor/Demonstrator	:	23
Senior Resident	:	24	Junior Resident	:	28

During the academic year, Medical Education Unit developed a competency-based curriculum with the following objectives:

- Competent clinician to practice preventive, promotive, curative and rehabilitative medicine in respect to the commonly encountered health problems in an individual at the primary, secondary or tertiary levels.
- Competent in diagnosis and management of common health problems of the community.
- Competent communicator with patients, families, community and members of Health team and other service providers.
- Professional with all the attributes of a good citizen and committed to provide services maintaining high standard of professional ethics and also be responsive and accountable to the patient, community and the profession.
- Self-directed learning (SDL) by students under strict supervision and guidance of faculty members.
- System of formative evaluation for teaching/learning methodologies.
- Competence based clinical teaching for educating the students to communicate with patients, colleagues and family.
- Learning natural history of disease, cause, process and effect of different agents on health of individual and also practice evidence based medicine (EBM).
