Event Report- Apti War – Battle for Analytical Skills, Speed and Accuracy

The event “**Apti War – Battle for Analytical Skills, Speed and Accuracy**” was organized by the **CCG&D Department** under the **Technical Committee** as part of Fiesta’26. The primary aim of the program was to strengthen students’ analytical thinking, quantitative aptitude, and ability to work with speed and accuracy in a competitive environment.

The event took place under the guidance of **Mr. Ayaz Mahmood** and **Mr. Shaz Alam**, who served as **faculty coordinators**. Their efforts were well-supported by **student coordinators Tausif Nawaz, Siddiqua Saud, Adil Ahmad, and Arj Khan Maqsood**, ensuring smooth management throughout the program.

The competition was conducted in two rounds. The **first round** served as a screening stage and assessed participants on fundamental aptitude components such as logical reasoning, quantitative skills, and analytical ability. A total of **28 students qualified** for the final round based on their performance.

The second and **final round** was more challenging, focusing on advanced analytical questions that required faster thinking and greater precision. Participants were evaluated on both correctness and the time taken to arrive at solutions, highlighting their ability to perform under pressure.

After comprehensive assessment, the winners were declared:

- **First Position:** Mohd. Nadir (B. Tech Computer Science)
- **Second Position:** Md. Arfakshad (B. Tech Computer Science)
- **Third Position:** Dilnawaj Alam (B. Tech Computer Science)

Their remarkable performance showcased strong analytical and problem-solving abilities. The event concluded on a positive note, appreciating all participants for their enthusiasm and acknowledging the dedicated efforts of coordinators and faculty members.

Apti War successfully provided students with a practical and competitive platform to test and strengthen their aptitude skills, reinforcing the importance of analytical thinking and accuracy in academic and professional pursuits.

Additionally, the event fostered a collaborative learning atmosphere where students not only competed but also exchanged problem-solving strategies and insights. This interaction contributed to peer learning and helped participants gain confidence in handling time-bound analytical challenges, making the event both educational and enriching.
