

Integral University, Lucknow and L&T EduTech, the hybrid learning arm of Engineering, Construction and Technology major Larsen & Toubro Limited jointly offers 4-year B.Tech program in Civil Engineering in Collaboration with L&T EduTech from session 2022-23. Through this program, the students will learn the basic engineering concepts from the academic experts of Integral University and the industry-led-application oriented courses developed by L&T EduTech curated by industry experts. The program aims to make the student industry ready by providing an immersive learning experience along with opportunities for site visits, internships, and projects.
