(Office of Deptt. of Civil Engineering)

Ref. No. IUL/CE/Head/2022/067

Dated: 28<sup>th</sup> October 2022

## NOTICE

### ***Technical Event: Param Nirman- "Working Model Making Competition"***

Department of Civil Engineering is organizing a technical event: **Param Nirman- Working Model Making Competition**. The event aims at creating a platform to explore, learn and promote the engineering application among the students through working model development competition. The objective is to transform the young potential into technical excellence with the flame of curiosity, knowledge, technology and application. This event fulfills SDG-4 and SDG-9 objective by facilitating quality education in civil engineering field where they can explore their skills, innovation and enjoy engineering education.

Students have to get registered in a group minimum of 4 members to participate in this event. A mentor will be allotted to each group to help in developing a working model. Working model can be anything relevant to civil engineering. Model should be able to demonstrate an idea or a process. Last date of registration is 5<sup>th</sup> November 2022 and the models have to be demonstrated on 15<sup>th</sup> December, 2022. Monetary help may be provided to participants for the development of model. Contact faculty coordinator for further details.
