Report on Industrial Visit to Amul-Banas Dairy, Lucknow

The Department of Commerce, Integral University, Lucknow, organized an Industrial Visit to **Amul-Banas Dairy, Golf City, Lucknow**, on **18 April 2026** with the aim of familiarizing students with industrial functioning and operational management practices. The visit was planned to provide experiential learning and help students correlate academic concepts with practical business and industrial applications.

The programme was organized under the guidance of **Prof. Adeel Maqbool (Convenor)** and **Prof. Ehtesham Ahmad (Co-Convenor)**. The faculty coordinators for the visit were **Dr. Neda Tasneem, dr. Shujaiddin Khan, Dr. Swapnil Sharma, and Ms. Saba Fatima**, who ensured the smooth execution of the programme.

During the industrial visit, students were given a comprehensive overview of the functioning of the dairy processing industry. Industry experts explained the complete operational cycle, including milk collection, quality testing, processing, pasteurization, packaging, storage, and distribution mechanisms. Students also observed the utilization of modern technology and automated systems in maintaining efficiency and quality standards within the organization.

The visit provided students with valuable insights into production management, logistics, supply chain coordination, quality control, and organizational management. It also enhanced their understanding of industrial discipline, workplace practices, and the importance of technology-driven operations in modern industries.

The interaction with industry professionals encouraged students to develop a practical understanding of industrial management and career opportunities in the manufacturing and dairy sectors. The visit served as an effective platform for experiential learning and professional exposure.

The programme concluded successfully with students acknowledging the visit as an enriching academic experience that enhanced their practical knowledge and understanding of industrial operations.
