## WHICH COUNTRIES ARE MOST INTERESTED IN DEEPPFAKES?

The European Commission calls deepfakes a "global crisis" with "implications for data security, privacy, and intellectual property rights."

The country most interested in deepfakes is **South Korea**, where there have been 13,399 searches per million people.

Methodology: We calculated Google search volume data for the top 100 deepfake-related keywords by country relative to the number of Internet users and the market share of Google search in each country.
