

## **Report of Educational Visit of Students of B.Sc. (Hons) Agriculture 2nd Year to C.P. Milk & Food Products Pvt. Ltd., Kursi Road, Lucknow, on 30<sup>th</sup> August 2025.**

The Department of Agriculture, Integral Institute of Agricultural Science and Technology (IIAST) organized an educational visit for the B.Sc. (Hons) Agriculture 2nd Year students of Group B & D to **C.P. Milk & Food Products Pvt. Ltd.**, Near Sports College, Kursi Road, Lucknow, on 30th August 2025. The primary focus of the visit was to provide students with practical exposure to modern dairy processing techniques, food safety standards, and to emphasize the importance of milk in nutrition, livelihood, and sustainability in alignment with the theme of World Milk Day, “Let’s Celebrate the Power of Dairy.”

The visit was conducted under the guidance of Prof. (Dr.) Mohd Haris Siddiqui, Dean, Faculty of Agricultural Science and Technology, and Prof. Saba Siddiqui, Head, Department of Agriculture, IIAST. The students were accompanied by faculty coordinators Dr. Pankaj Kumar Gupta and Dr. Zeeshan Ahmad Khan, who facilitated smooth coordination and supervision throughout the visit.

A total of 35 students participated in the visit. Upon arrival, the students were warmly welcomed by Mr. Archit Srivastava, Deputy Manager – HR of C.P. Milk & Food Products Pvt. Ltd., who briefed them about the company and the day’s program.

The program commenced with a detailed introduction to the dairy industry and the operational overview of the facility. The students visited various milk processing units including those for ghee, butter, lassi, dahi (curd), and paneer production. They gained insights into the modern techniques and machinery used in processing these dairy products, as well as the food safety and quality control standards maintained by the company.

The visit highlighted the significance of milk and its derived products in nutrition and rural livelihoods, along with sustainable dairy farming practices. Emphasis was placed on hygienic processing and quality assurance to ensure the nutritional value and safety of dairy products.

An interactive session followed, where students engaged with company experts, asking questions about dairy processing challenges, innovations, and industry trends. This practical exposure complemented their theoretical studies and deepened their understanding of the dairy sector.

Overall, the educational visit to C.P. Milk & Food Products Pvt. Ltd. was an enriching and informative experience. It enhanced students’ comprehension of contemporary dairy processing

techniques and the critical role of dairy in nutrition and sustainability. The Department of Agriculture, IIAST, expresses sincere gratitude to Mr. Archit Srivastava, the management, and staff of C.P. Milk & Food Products Pvt. Ltd. for their warm hospitality and valuable guidance during the visit.
