

Report on Road Safety Awareness Program Under National Service Scheme (NSS) organized by Community Club

The Department of Agriculture, Integral Institute of Agricultural Science and Technology (IIAST), organized a Road Safety Awareness Program under the National Service Scheme (NSS) by Community Club on 17th September 2025 with the objective of educating students about the importance of road safety and promoting responsible behavior on roads. The program began with an introductory session by Mr. Utkarsh Dwivedi, Manager, Transport Commissioner's Office, Uttar Pradesh, who emphasized critical aspects of traffic regulations, preventive measures, and road safety essentials. This was followed by an insightful lecture delivered by Mr. Pankaj Kumar, Associate, Social Impact, who highlighted practical approaches to responsible road usage, accident prevention strategies, and the social significance of safe driving practices.

During the sessions, students were sensitized to various dimensions of road safety, including adherence to traffic rules, cultivating responsible driving habits, understanding the consequences of negligence, and recognizing the importance of pedestrian safety. A special focus was placed on raising awareness about the broader societal impact of adopting safe driving practices. The program witnessed active participation of approximately 129 students and 16 faculty members, reflecting the keen interest and enthusiasm of the academic community. An interactive session at the end further enriched the event by providing students with an opportunity to raise queries and seek clarifications, ensuring a comprehensive understanding of the subject matter.

The program proved to be both informative and impactful, equipping students with a better understanding of road safety measures and responsible behavior, and promoting a collective culture of awareness and accountability among students and faculty alike. The program was conducted under the able guidance of Prof. (Dr.) Mohd Haris Siddiqui, Dean, Faculty of Agricultural Science and Technology, and Prof. Saba Siddiqui, Head, Department of Agriculture, IIAST. The smooth execution of the event was ensured by the efforts of faculty coordinator Dr. Nitish Kumar and supporting staff member Mr. Mehtab Ahmad. The Department of Agriculture expressed its sincere gratitude to the resource persons for their valuable contributions in sharing knowledge and creating awareness among students.
