## SUMMARY

I am a B.Tech graduate with good knowledge of computers and front-end development. I have experience in handling computer labs, helping students with basic software and internet use, and keeping systems in working condition. I am familiar with Python, WordPress, HTML, CSS, and basic troubleshooting, and I enjoy working in an environment where I can support others in learning technology.

## WORK EXPERIENCE

### Freelance Web Developer | Remote                                    **Present**

Responsible for delivering customized web solutions remotely
- Designed and developed custom WordPress websites for clients in diverse industries, focusing on responsive design and performance optimization
- Managed project timelines, reducing delivery times by 30%
- Delivered portfolio, NGO, and business websites using React.js, Next.js, Tailwind CSS, and WordPress
- Communicated with clients to gather requirements, manage revisions, and ensure timely delivery.
- Handled domain, hosting, deployment, and basic troubleshooting post-launch.

### Web Development Intern | Global Advertisers (IMW) | Remote        **Dec 2023 - Jun 2024**

An advertising company focused on innovative marketing solutions
- Contributed to live major projects using HTML, CSS, JavaScript, React.js, and Next.js.
- Managed project timelines, reducing delivery times by 30%.
- Collaborated with cross-functional teams, enhancing project success rates by 10%.
- Developed and managed WordPress sites, including theme customization and plugin integration.

### Web Development Intern | Technifite | Remote                      **Sep 2023 - Nov 2023**

A technology firm specializing in innovative web solutions
- I worked on creating responsive and user-friendly web pages using WordPress.
- Improved and maintained websites using HTML, CSS, and JavaScript.

## PROJECTS

### NGO FEED | New Delhi , Delhi                                      **Aug 2023 - Sep 2023**

- I have hands-on experience in front-end development using HTML and Tailwind CSS.
- Collaborating with teams to create stunning dynamic web pages.
- Actively learning JavaScript, React, and Next.js to enhance skills and understand API integration.

### Portfolio Website | New Delhi, Delhi                              **Dec 2022 - Jan 2023**

- Designed and enhanced a personal portfolio website using HTML and CSS.
- Showcased development skills and project work in a modern, user-friendly interface.
- Emphasized responsive layout and clean code for performance and accessibility.

### School website | Greater Noida Colleg | Greater Noida, UP         **Mar 2022 - Apr 2022**

- I used HTML and CSS to develop a school website.
- The website is designed to provide an online presence for our school.
- Functioned as a central point of information for current and prospective students and parents.
