LOCATION : Lucknow, INDIA

EXPERIENCE: Fresher

- **Internship- Pharm. D (P.B.):**

July 2024 – June 2025

Integral Institute of Medical Sciences and Research

Provided hands-on experience in clinical pharmacy, focusing on patient-centered care and medication safety. I performed medical scribing, documented patient information, including medical history, diagnoses, and recommendations, conducted prescription audits and actively participated in pharmacovigilance by monitoring adverse drug reactions. A key aspect was medication error detection across all stages. I also managed patient profile documentation, made clinical interventions, monitored drug dosages, and handled clinical data entry. This experience significantly enhanced my understanding of medication management and interdisciplinary collaboration.

- **Projects:**

Thesis on Hypertension

July 2023 – June 2024

Prospective Observational Study on Evaluation of Drug Effectiveness, Adverse Drug Reactions and Adherence Among Hypertensive Patients in General Medicine at Integral Institute of Medical Science & Research Hospital.
