association with
“Mychatri”

Brief Report

A workshop in association with **Mychatri** on the topic **“Finding the Gap & Bridging the Gap in IT Industry”** on **17 th August 2019**. In continuation to the workshop, there were two separate sessions of 90 minutes each for the students of finals year MCA and BCA respectively, wherein they were provided with a demo lecture on “ANDROID –the app development process”. The Demonstrator – Mr. Ravi Pratap Singh, having more than 8 years of experience in web and app development, was very professional and expressive. Mr. Singh took all the pains to enlighten the real procedure of developing an application (‘App’) using android platform, to the students who participated in this session of live demonstration and practice. Around 250 students in total participated in the workshop with great enthusiasm and seriousness. The session was highly appreciated by the participating students and the academicians & management of the department as well. Mr. Mohd Haleem Assistant Professor of the department successfully coordinated the event.
