

Integral University, Lucknow
Workshop on
“AI Application development using IBM Watson”
(30 Sep 2019)
Organized by
Department of Computer Application
association with
“OWT Technologies”

Brief Report

A one day hands on workshop in association with **OWT Technologies** on **“AI Application development using IBM Watson”** on **30 th Sep 2019**. In continuation to the workshop, there were two separate sessions of 3 hours each, wherein they were provided with a lecture on Artificial Intelligence and development of AI applications using the IBM Watson. The Demonstrator – **Dr. Saif Abrar** (Technical Lead, IBM India Pvt Ltd) having more than two decades of industry experience, was very professional and expressive. He took all the pains to enlighten the real procedure of developing an AI application using IBM Watson, to the students who participated in this session of live demonstration and practice. Around 110 students in total participated in the workshop with great enthusiasm and seriousness. The session was highly appreciated by the participating students and management of the department as well. **Mr. Wasim Khan** and **Mr Tabrez Khan** of the department successfully coordinated the event.
