### **Summary Report**

**Activity:** Essay Writing

**Held on:** 16-03-2021

As per guidelines received from the Ministry of Education an online *Essay Writing Competition* was organized under a program “**Bharat Ka Amrut Mahotsav**” planned by the government of India.

The competition was open for both I year and II year students of School of Pharmaceutical Sciences (SPS) to participate. In the competition, the participants had the opportunity to choose any one of the given topics to write their views in not more than 500 words. Topics included: i) Future Vision of India in 2047, ii) Achievements of India and its citizens since 1947 were given details of formatting (.pdf format) for submission of the writing.

Out of the five participants one was recommended as the winner by the expert panel of evaluators. The panel of evaluators included Ms. Neha Jaiswal (Lecturer, Department SPS), Ms. Ambareen Fatima (Lecturer, Department SPS) and Mr. Asad Ahmad (Lecturer, Department SPS). The judgment was concluded and approved & certified by Ms. Widhilika Singh (Activity Coordinator, Department SPS) and Mr. Irfan Aziz (Principal, Department SPS) respectively.

**Winner:** Mo Asif khan (I year), SPS

He wrote on *Future Vision of India in 2047*.

\*Essay Writing Competition 2021\*  
under a program "Bharat Ka Amrut Mahotsav"

**Theme:-Future Vision of India in 2047**

**In 2047, all major cities in my country turned into the most advanced smart cities in the world where pollution levels would be zero and all facilities would be fully automatic.**

I imagine that by 2047 the problems of corruption, poverty, backwardness and illiteracy in India will be completely removed from the face of my country.

Mission 2047. By this mission and vision year we Indian will have completed 100 years of independence. I am an Indian citizen. Our India country not only achieve self-sufficiency in all major sectors and regions, but also in other countries in technology, environment management, defense, education, medical science, space exploration, economic development.

**I imagine that the level of Indian education went to the most advanced levels with high-tech and advanced universities in all the countries where students from all parts of the world come to study. I envision ISRO setting up settlements on Mars where Indians will go on holiday.**

**The year 2047 is symbolic for us. It takes a whole century,**

Activ

**Mr. Irfan Aziz**
