Prof. BadarAlam is himself a great academician & researcher who has extensive experience of writing papers in various renowned international journals. He enlightened the faculties and research scholars about the process of writing the papers.

During the seminar faculties and research scholars raised several questions before the speaker about the research paper writing on which Prof. BadarAlam gave following tips to keep in mind while writing a research paper:

Clarity: Cleary define terms; avoid no relevant information.

Simplicity: Keep sentence structure simple and direct.

Accuracy: Represent all data and illustrations accurately.

Prof. BadarAlam also discussed the reasons why a research paper is not accepted in the indexed journals. He held the view that most of the time while writing research papers we fail to follow the guidelines of the journals.
