Dear All,
Greetings!!

This is to inform you that the Department of Biosciences and Bioengineering, under the aegis of HRDC, Integral University are organizing a guest lecture on the topic "Mushroom Biotechnology: The rise of fallen" by Prof. Dr. M.P. Singh, Centre of Biotechnology from Allahabad University, Allahabad, on **February 24, 2020 at 11:30 a.m. in Hall - IV (Central Auditorium)**.

Prof. Singh is presently serving as the Head, Centre of Biotechnology and Centre of Bioinformatics, of Allahabad University, Allahabad. He has around 100 publications in peer reviewed and journal of international repute and has been bestowed with many National and International awards.

The Microbial & Mushroom Biotechnology Lab of Prof. MP Singh is engaged in research on various aspects of human welfare ranging from food, disease to environmental problems. Mushroom biotechnology has the potential to mitigate the problems of food, malnutrition, disease, energy crisis and environmental degradation. Mushrooms have become an important tool for restoration, replenishment and remediation of earth's overburdened ecosphere. Pertaining to his vast experience in this area, he will accost the graduate and post graduate students of Biosciences, Bioengineering and allied courses about the numerous prospects of Mushroom Biotechnology in higher education and entrepreneurship.

Interested faculty members and students are cordially invited to attend the same.

Thanks and regards,
Dr. Syed Aqeel Ahmad
Director
Human Resource Development Centre (HRDC)
Integral University, Lucknow
