Brief report on Kisan Goshti organized by Department of Agriculture, IIAST on “Seasonal Tomato Cultivation: A Comprehensive Guide to Successful Farming” at K.V.K Sitapur

(मौसमी टमाटर की खेती: सफल खेती के लिए एक व्यापक मार्गदर्शिका)

The Kisan Goshti organized by the Department of Agriculture at IIAST, focusing on "Seasonal Tomato Cultivation: A Comprehensive Guide to Successful Farming," held on December 14, 2021, at K.V.K. Sitapur, proved to be a significant event for local farmers. With the aim of enhancing agricultural practices and improving yields, this gathering provided invaluable insights into the cultivation of tomatoes during specific seasons. Dr. Satish Yadav, Assistant Professor, IIAST and a distinguished expert in the field, delivered a comprehensive guide emphasizing the intricacies and best practices essential for successful tomato farming. His expertise shed light on crucial aspects such as soil preparation, seed selection, planting techniques, irrigation methods, pest and disease management, and harvesting strategies, tailored to the seasonal variations observed in the region.

Dr. Yadav's presentation not only offered practical solutions but also instilled confidence among the attending farmers, empowering them with knowledge to optimize their crop yields and enhance profitability. By addressing the challenges specific to seasonal tomato cultivation, such as weather fluctuations and market demands, Dr. Yadav's insights bridged the gap between traditional practices and modern agricultural techniques. The Goshti was observed under the guidance of Prof. Mohd Haris Siddiqui, Director, Integral Institute of Agricultural Science and Technology and Dr. Saba Siddiqui, Head, Department of Agriculture, IIAST.

The Kisan Goshti served as a platform for knowledge exchange and capacity building, fostering a sense of community among farmers and equipping them with the tools necessary to thrive in the ever-evolving agricultural landscape. Overall, the event underscored the importance of continuous learning and adaptation in agriculture, paving the way for sustainable farming practices and economic prosperity in the region.

Glimpses of Kisan Goshti
