Brief report on Kisan Goshti organized by Department of Agriculture, IIAST

On "Vaccination schedules for livestock" in Anwari Village

(पशुधन के लिए टीकाकरण कार्यक्रम)

The Kisan Goshti organized by the Department of Agriculture at IIAST on "Vaccination Schedules for Livestock" held on December 28, 2021, in Anwari village, served as a pivotal platform for educating local livestock farmers on the importance of timely vaccinations in ensuring the health and productivity of their animals. Recognizing the critical role of vaccinations in preventing diseases and minimizing economic losses, this event aimed to raise awareness among farmers about the significance of adhering to proper vaccination schedules for livestock. With increasing incidences of diseases affecting livestock populations, the goshti provided essential guidance to empower farmers with the knowledge and tools necessary to safeguard their animals' well-being. The Goshti was observed under the guidance of Prof. Mohd Haris Siddiqui, Director, Integral Institute of Agricultural Science and Technology and Dr. Saba Siddiqui, Head, Department of Agriculture, IIAST.

Dr. Pankaj Gupta, Assistant Professor at the Department of Agriculture, IIAST, delivered insightful guidance on vaccination schedules tailored to the specific needs and challenges faced by livestock farmers in Anwari village. Drawing upon his expertise in animal health management, Dr. Gupta emphasized the importance of understanding the vaccination requirements of different livestock species, as well as the appropriate timing and administration techniques for various vaccines. His presentation elucidated the potential consequences of neglecting vaccinations and highlighted the role of preventive healthcare measures in mitigating disease outbreaks and enhancing livestock productivity.

Through interactive discussions and practical demonstrations, the goshti facilitated knowledge exchange and capacity building among livestock farmers, equipping them with the necessary skills to implement effective vaccination programs on their farms. By promoting a proactive approach to animal health management, the event not only aimed to improve the welfare of livestock but also contributed to the overall sustainability and resilience of the local agricultural community in Anwari village.

Glimpses of the Goshti
