**Department of Computer Science and Engineering  
in collaboration with NSS****Report on SPEL Training Program****Program Overview:**

Duration: November 1st - November 30th 2024

Location: Various police stations in Lucknow, Uttar Pradesh

The Student Police Experiential Learning (SPEL) program, facilitated by the Computer Science and Engineering (CSE) department of Integral University, Lucknow in association with the UP Police Service provided an opportunity for NSS Volunteers to gain practical insights into the workings of law enforcement. Students spent time at police stations and learnt about the working of police and how cops deal with crimes. Students learnt about police investigation of crimes and how serious and complicated cases are cracked. They also observed the strategy of cops in controlling crime and restoration of peace in case of violence and law and order situation.

During the initial days of the program, students were introduced to different specialized departments within the police force, such as cybercrime and cyber fraud units, as well as the establishment of pink booths for women's safety. They also learned about the process of filing an FIR and the significance of the Mahila booth in addressing women's concerns and grievances.

As the program progressed, students delved deeper into various aspects of law enforcement, including crowd control techniques and strategies. They were exposed to real-life scenarios at locations such as the Tedhipulia Chauraha, where they observed the intricacies of traffic management and emergency response systems. Through practical demonstrations and interactive sessions, students gained valuable insights into the complexities of maintaining public safety and order.

Overall, the SPEL program provided students with a comprehensive understanding of the roles and responsibilities of law enforcement agencies. By immersing themselves in real-world experiences and learning directly from police professionals, students acquired practical skills and knowledge that will undoubtedly contribute to their academic and professional development in the field of law enforcement and public safety.

Overall 20 NSS volunteers from department of Computer Science and department of forensic Science, Integral University benefited from this training program under the supervision of Dr. Sheeba Praveen, Associate Professor and NSS Program Officer, Integral University.
