About the Department of Chemistry, Integral University

The rich legacy of the Department of Chemistry at Integral University dates back to the year 1998, coinciding with the establishment of the Integral Institute of Technology, and subsequently evolving into the full-fledged Integral University in 2004. The department is known for its inspiring faculty members and motivated students. The department offers undergraduate and postgraduate programmes in Industrial Chemistry and Chemistry and also offers Ph.D. programme in both full-time and part-time mode. The academic excellence is reflected by the placements of the students in recognized organizations and their progress in higher studies as some of them have joined reputed organizations to pursue their doctoral studies. The department has state-of-the-art and meticulously designed laboratories to hone the practical skills of the students. Further, the newly incepted Central Instrumentation Facility is furnished with sophisticated amenities to facilitate the research endeavours. As the outcome of laborious work and quality research, more than 300 research papers affiliated to the Department have been published in National and International journals of repute. The faculty members have also authored several reference and text books and contributed book chapters in international books.

About Laboratory Safety and Hazardous Chemical Waste Disposal Committee, Integral University

Chemicals used in laboratories may be corrosive, flammable, toxic or explosive. Many of them may be even carcinogens, teratogens or irritants and hence, they need to be safely disposed of, to avert any hazardous effect on the flora and fauna. Keeping this perspective in mind, Integral University has a functional committee to look after the process of chemical waste management, including its collection, categorization, disposal and management. The committee is instituted to meet the Sustainable Development Goals, particularly for the promotion of Goal 3 (Good Health and Well-being), Goal 11 (Sustainable Cities and Communities) and, Goal 13 (Climate Action).

About Borosil Scientific

Borosil Scientific Limited offers an entire gamut of the finest quality scientific and laboratory glassware, laboratory instruments and primary pharmaceutical packaging. Borosil Technologies Limited located at Hinjewadi, Pune is a 100% owned subsidiary of Borosil Limited which is mandated to develop Laboratory equipments under Labquest brand. Borosil Klass Pack Ltd., a subsidiary of Borosil Limited, is one of India's leading manufacturers of Glass Ampoules and Tubular Glass Vials of USP Type 1 that are widely used as primary packaging materials by pharmaceutical companies for their lifesaving drugs. We also manufacture a wide portfolio of Chromatography vials. Borosil Process Sciences, a recent introduction in the portfolio provides sophisticated offerings for chemical synthesis & process development from benchtop reactors to complex pilot plants with programmable controls. This range of over 3000 products from glassware, equipment and pharma packaging finds application across diverse disciplines such as Quality Control in pharmaceutical industries, research institutes, food and soil testing, microbiology, biotechnology, agriculture and many more. Newest introduction Symbolising quality, accuracy and dependability since six decades, Borosil has earned the trust and unwavering loyalty of leading pharmaceutical companies and R&D laboratories, as well as scientific, health and educational institutions.

About ACT

The Association of Chemistry Teachers was launched in 2000 to serve as an apex national body of chemistry educators to promote excellence in chemistry education. The idea of formulating ACT was conceptualised by Homi Bhabha Centre for Science Education (TIFR) Mumbai. The Association brings together on a common platform higher secondary school teachers, college and university lecturers, professors, scientists and researchers from industry for organizing subject related activities. Since its inception, ACT has worked tirelessly to strengthen chemistry education in India and to motivate students to pursue chemistry as a career.

ORGANIZING CHAIRPERSON

Professor Abdul Rahman Khan
Dean, Faculty of Science &
Head, Department of Chemistry

SESSION DETAILS

Session	Resource Person
14 th August	<p>Prof. Sudha Jain Retired Head, Department of Chemistry & Former President, Association of Chemistry Teachers, University of Lucknow</p> <p>Dr. Rachana Kumar Principal Scientist Associate Professor-AcSIR, Analytical Chemistry Division CSIR-Indian Institute of Toxicology Research, Lucknow</p> <p>Mr. Rohan Mehrotra Sales Executive Borosil Scientific Ltd.</p>
16 th August	<p>Dr. Asha Budakoti DST- Women Scientist CSIR-Central Institute of Medicinal and Aromatic Plants, Lucknow</p>
17 th August	<p>Dr. Mohd. Azhar Khan Head, Department of Chemistry KKLK College, Kanpur</p>
20 th August	<p>Prof. Susan Verghese P Head, Department of Chemistry St. John's College, Agra</p>
21 st August	Demonstration to students
22 nd August	<p>Prof. Vinod P. Sharma Sr. Principal Scientist & Head, Quality Assurance, CSIR-Indian Institute of Toxicology Research, Lucknow</p> <p>Prof. Seema Joshi Head, Department of Chemistry, Isabella Thoburn College Lucknow</p>

Specific details will be shared before the commencement of each session on the WhatsApp group <https://chat.whatsapp.com/GWyAuOqAOUj9F2WH9SWKmf> or Scan ▼

Certificates will be issued to the registered participants.

Dear All,

It gives me immense pleasure to inform you that the Department of Chemistry is organizing a Training Workshop on "**Good Laboratory Practices and Safety Measures**", in collaboration with the Association of Chemistry Teachers (ACT), Borosil Scientific Ltd & under the Aegis of Laboratory Safety and Hazardous Chemicals Waste Disposal Committee of the university from 14th August to 22nd August 2024.

Eminent and experienced resource persons are invited for this week-long programme, who will elaborate on the importance of GLPs and how they are useful for avoiding accidents and exposure to hazardous chemicals in laboratories. Along with the theoretical aspects, the practical handling of chemicals and glassware will also be demonstrated under their guidance.

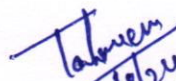

I anticipate enthusiastic participation from the students and faculty, particularly from Chemistry, Pharmacy, Biosciences and Bioengineering and hope that it will be an enriching experience for the participants. The link for registration "<https://www.iul.ac.in/FrmAdvProgramReg.aspx>"

For further queries contact: Dr. Tahmeena Khan, Organizing secretary on +919793232443.

Regards & Best Wishes,

Professor Abdul Rahman Khan

One Week Training Workshop
on
Good Laboratory Practices & Safety Measures

14th-22nd August

Organized by
Department of Chemistry
in collaboration with **Association of Chemistry Teachers,**
Borosil Scientific Limited &
Under the aegis of
Laboratory Safety & Hazardous Chemical Waste Disposal Committee
at
10:30 a.m. on Wednesday, 14th August, 2024
in the Hall-3 Central Auditorium of the University.

Minute to Minute Programme : Day I- 14th August 2024

Inaugural Session : Time: 10:30 AM- 10:45AM

110:30 AM-10:35 AM	Bouquet Presentation
10:35 AM-10:40 AM	Welcome Address by Prof. Abdul Rahman Khan , Dean, Faculty of Science
110:40 AM-10:45 AM	Address by Prof. Wahajul Haq , Dean, Research & Development

Session I: Time: 10:45 AM - 12:30 PM

10:45 AM-10:50 AM	Introduction of Expert Speaker by Dr. Shahla Tanveer , Asst. Professor, Department of Chemistry
10:50 AM- 11:10 AM	Lecture by Prof. Sudha Jain , Retired Head, Department of Chemistry, University of Lucknow
11:10 AM- 11:30 AM	Lecture by Dr. Rachana Kumar , Principal Scientist, Analytical Chemistry Division, CSIR-IITR
11:30 AM- 11:45 AM	Tea break for dignitaries
11:45 AM- 12:10 PM	Lecture by Mr. Rohan Mehrotra , Sales Executive, Borosil Scientific Ltd.
12:10 PM- 12:15 PM	Memento Presentation
12:15 PM- 12:20 PM	Vote of thanks
12:20 PM- 12:30 PM	High-Tea

under the aegis of

Laboratory Safety and Hazardous Chemical Waste Disposal Committee

14th-22nd August, 2024

REPORT

Details in a nutshell:

Total Number of participants	Faculty	Students
157	22 (Inside=18, Outside=04)	135 (Inside=119, Outside=16)

The Department of Chemistry, Integral University in collaboration with the Association of Chemistry Teachers (ACT) and Borosil Scientific Limited organized a One one-week workshop on Good Laboratory Practices and Safety Practices from 14th-22nd August 2024. The Laboratory Safety and Hazardous Chemical Waste Disposal Committee, Integral University, is committed to conducting awareness and training programmes with students, laboratory support staff, and faculty members to promote lab safety practices as one of its prime objectives and also monitor the process of chemical waste management, including its collection, categorization, disposal, and management. The activity was also aligned with **SDGs 3, 11 and 13**.

Laboratory Safety & Hazardous Chemical Waste Disposal Committee, Integral University: An Overview

As a part of the Institutional Ethics Committee Integral University since its inception has been focused on the overall development and nurturing of students and society. The university has made some conscious efforts to improve not only the quality of education but also contribute significantly to the sustainable development of the society and environment as a whole. The institution has a well-established Science faculty where students are learning to implement the theoretical principles through practical classes which are conducted in well-equipped laboratories thereby making it equally pertinent to safely dispose and manage laboratory waste, particularly hazardous chemical waste for efficient environmental and human health protection. Chemicals used in laboratories may be corrosive, flammable, toxic, or explosive. Many of them may be even carcinogens, teratogens, or irritants and hence, they need to be safely disposed of, to avert any hazardous effect on the flora and fauna. Keeping this perspective in mind, the university has established a committee to look after the whole process of chemical waste management, including its collection, categorization, disposal and management. The committee is instituted to meet the Sustainable Development Goals, particularly for the promotion of Goal 3 (Good Health and Well-being), Goal 11 (Sustainable Cities and Communities), and, Goal 13

(Climate Action). The committee also works as per the directives of NAAC for waste management falling under criterion 7.

Objectives of the training workshop:

The workshop was planned with the following objectives:

- To ensure the quality and integrity of laboratory data
- To promote sound laboratory practices
- To prevent errors and inaccuracies during practicals
- To enhance the credibility and reliability of laboratory studies

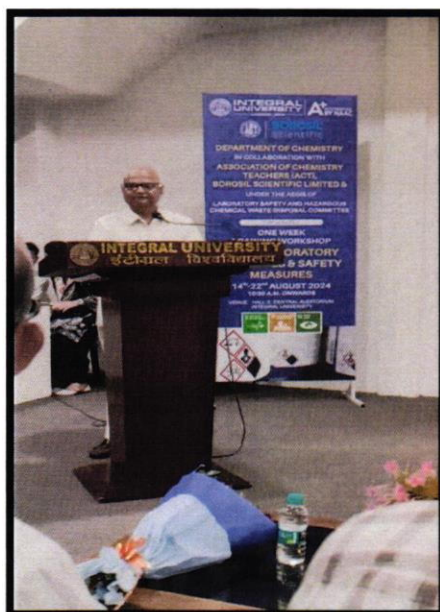

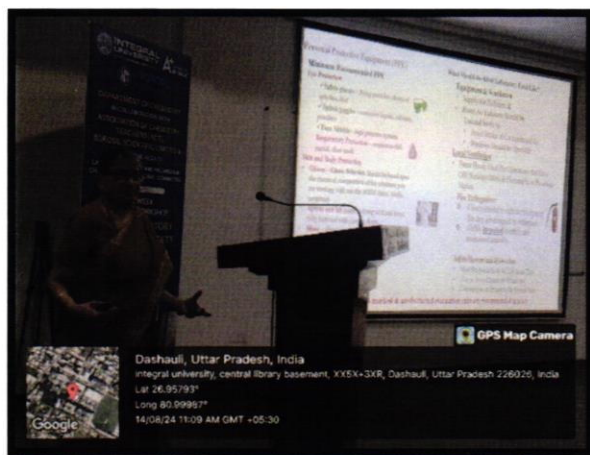

The one-week training involved a participatory student-centric methodology. The training content involved the elaboration of study plans, preparation, and submission of samples to the laboratory, use and maintenance of lab equipment: desiccators, precision balances, measuring liquids, and following standard procedures for several analyses. During this workshop seven expert lectures were organized by eminent resource persons and Hands-on sessions were conducted, which are as follows:

❖ **Day 1: 14th August, 2024**

The session was inaugurated after a formal welcome of the dignitaries. The session opened with the welcome address of **Professor Abdul Rahman Khan**, Dean, Faculty of Science, Head, Department of Chemistry and Organizing Chairperson of the workshop. Prof. Rahman highlighted the importance of quality assurance and quality control in every sphere of life. He dwelled upon the application of Standard Operating Procedures (SOPs) in personal and professional life. After his address, **Professor Wahajul Haq**, Dean, R & D addressed the participants and appreciated the effort of the Department of Chemistry for organizing the workshop on a relevant topic. He praised the Organizing Secretary, **Dr. Tahmeena Khan** for the well-planned event. The details of the resource persons and the highlights of their talks are given below:

Resource person	Highlights of the talk
Prof. Sudha Jain , Rtd. Head, Department of Chemistry University of Lucknow & Former President, ACT	The main focus of Prof. Jain's presentation was the implementation of safety measures while performing chemistry practicals in the laboratory and the importance of the use of PPE.
Dr. Rachana Kumar , Principal Scientist & Associate Professor- AcSIR, Analytical Chemistry Division, CSIR- Indian Institute of Toxicology Research, Lucknow	Dr. Rachana accentuated good laboratory practices & ethics in presenting data and also different parameters which should be kept in mind while dealing with hazardous and toxic chemicals.
Mr. Rohan Mehrotra , Sales Executive Borosil Scientific Ltd.	Mr. Rohan elaborated on different glassware used in the Chemistry lab and how the glass quality impacts exposure of chemicals. He also discussed the classification of glass and its grades used for storing and delivery of chemicals.

The session ended after the presentation of mementoes of appreciation to the speakers. The vote of thanks was proposed by **Dr. Shahla Tanveer**.

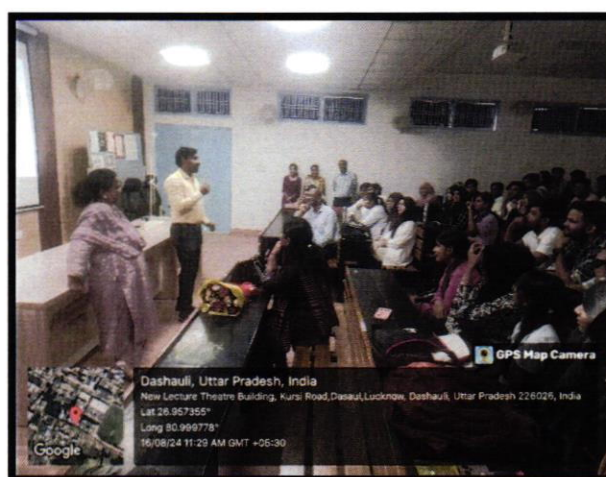

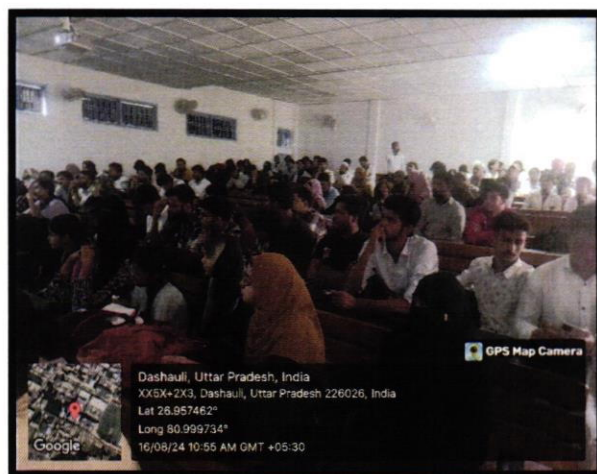

Session I

❖ Day 2: 16th August, 2024

The second session of the programme was held in D113 at 10:30 am. The session commenced after the formal welcome and introduction of the speaker by **Dr. Mohd. Imran Ahmad**. The details of the session are summarized below:

Resource person	Highlights of the talk
Dr. Asha Budakoti, DST- Women Scientist, CSIR-Central Institute of Medicinal and Aromatic Plants (CIMAP), Lucknow	Dr. Budakoti shared some dark episodes in pharmaceutical industries due to ill practices in industries and why the GLP regulation evolved. The importance of correct SOPs was also emphasized.

After the lecture, Dr Imran Ahmad, Assistant Professor in the Department of Chemistry, demonstrated to the students the handling of apparatus like burette and pipette used for quantitative analysis. He also explained the precautions to take while mouth pipetting and asked the students to show how they pipetted in the laboratory. The workings of the micropipette were also discussed with the students. The session ended after discussion and the vote of thanks was proposed by Dr. Mohd. Imran Ahmad.

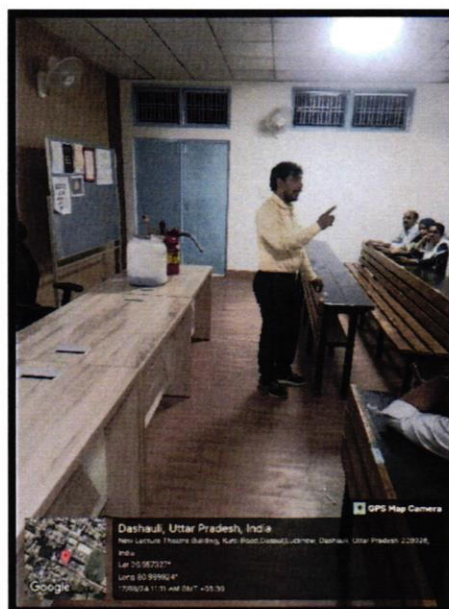

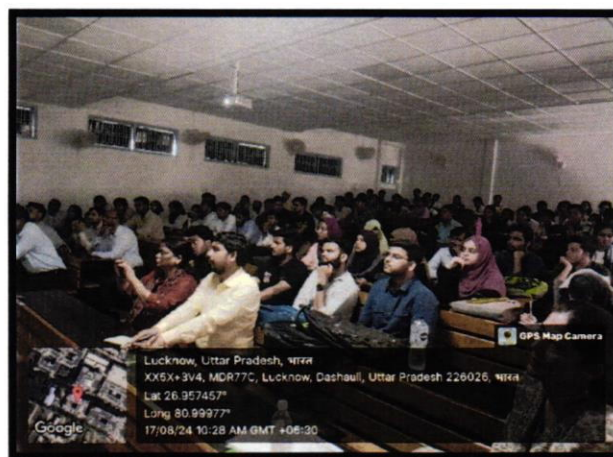

Session II

❖ Day 3: 17th August, 2024

The third workshop session was held on 17th August 2024 at 10:30 am in D113. The resource person was introduced by **Dr. Tahmeena Khan**. The details of the session are summarized below:

Resource person	Highlights of the talk
Dr. Mohd. Azhar Khan, Head, Department of Chemistry, KKLK College, Kanpur	Dr. Azhar delivered an interesting lecture which encompassed SOPs, and also highlighted health hazards of chemicals if not handled carefully. He also discussed some famous incidents which happened due to negligence while handling hazardous chemicals.

After the lecture, Dr Imran Ahmad demonstrated the use of safety cans in the laboratory and explained how to dispose of various organic and inorganic chemical wastes during Chemistry practicals. The session ended after a discussion and vote of thanks by Dr. Tahmeena Khan.

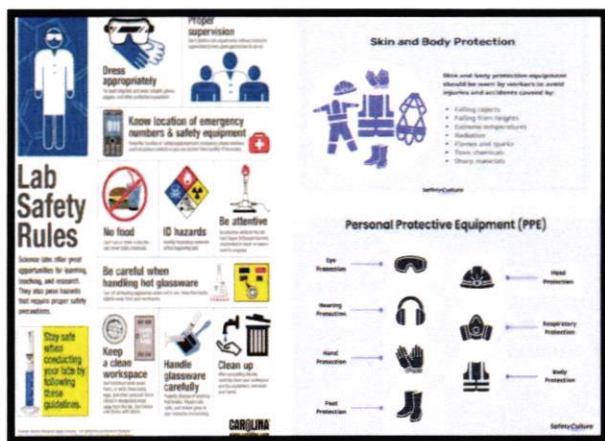

Session III

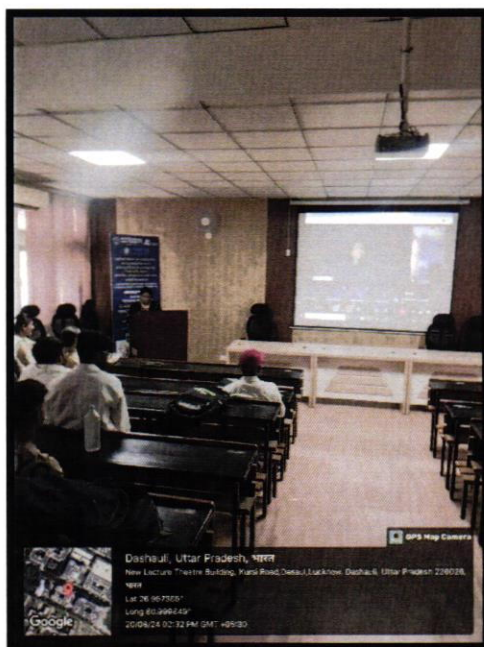

❖ Day 4: 20th August, 2024

For the fourth session of the workshop, the resource person connected virtually through Google Meet. for her lecture, which was scheduled at 2:00 pm in D113. The speaker was introduced by Dr. Shahla Tanveer. The details of the session are summarized below:

Resource person	Highlights of the talk
Prof. Susan Verghese P, Head, Department of Chemistry, St. John's College, Agra	She delivered an online presentation focusing on safety measures, and also highlighted the importance of fire extinguishers in the laboratory. She also discussed various symbols used to indicate the nature and handling of a particular chemical.

Key points discussed during Session IV

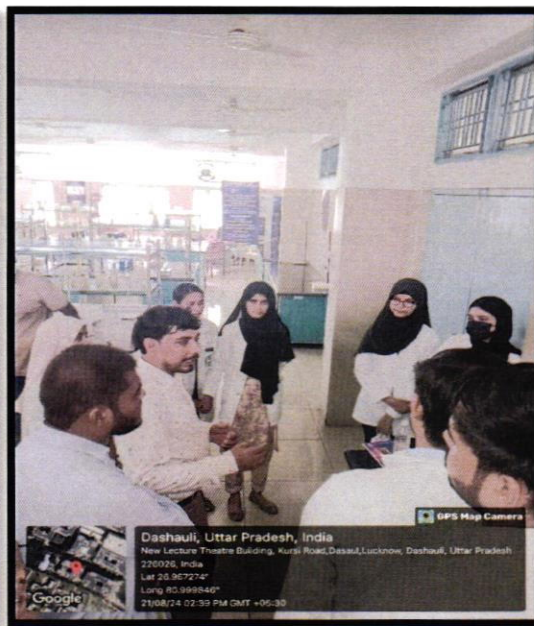

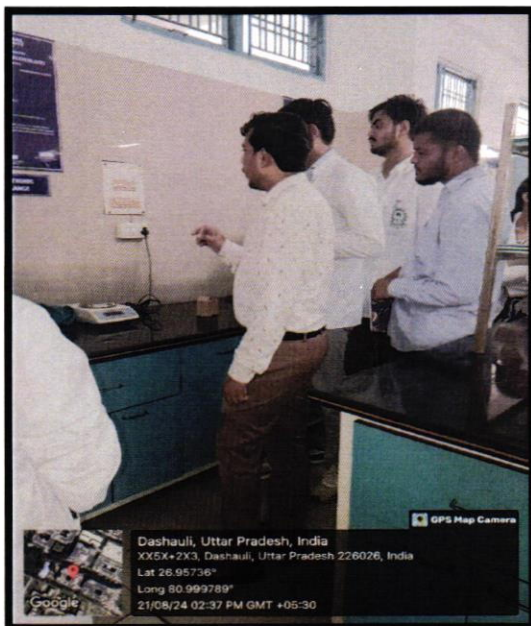

Session IV

After the lecture, Dr Tahmeena Khan, organized an online Quiz on GLPs and based on the lectures by the resource persons. The session ended after a discussion and vote of thanks.

❖ **Day 5: 21st August, 2024**

The focus of the fifth session was a practical demonstration to the participants who attended the session in batches. It was open for registered as well as non-registered students. The emphasis was laid on the precautionary measures which should be taken during the quantitative analysis, particularly solution-making for titrations. **Dr. Mohd. Imran Ahmad**, demonstrated to UG and PG students the use of apparatus in the chemistry laboratory and also demonstrated the weighing of chemicals through a weighing tube. He emphasized that the chemical should never be weighed on filter paper and should not be thrown away in dust bins. He also demonstrated the preparation of standard solutions in the laboratory. About 100 students from different classes like **B.Tech., B.Sc. (BFS) and B.Sc. and M.Sc. Industrial Chemistry** attended the session. After the session, the participants were asked to write a brief report on the points which they understood about GLPs during the workshop. The reports were submitted to the organizing secretary.

Session V

❖ Day 6: 22nd August, 2024

The sixth and final session of the workshop was held on 22nd August, 2024 from 10:30 am onwards in Hall-3 of the central auditorium building. The resource person was introduced by Dr. Tahmeena Khan. The details of the session are as follows:

Resource person	Highlights of the talk
Prof. Seema Joshi, Head, Department of Chemistry, Isabella Thoburn College, Lucknow	Along with the general safety rules, the resource person also explained the importance of accurate weighing, proper pipetting and solution-making. An emphasis was given to calibration of the apparatus and instruments to identify potential hazards. A method of calibration was also explained to the students and the error probabilities were. The safety measures while performing the titration were also explained. Professor Joshi also explained the importance of storage of chemicals according to their compatibility.

Handling of volatile solutions

- Acids and chlorine should be stored separately
- Organic and inorganic compounds should be stored separately
- Ammonium nitrate is sensitive to heat and can trigger an explosion due to nitrous oxide liberation, keep in dark and dry place

Common effect of Exposure

- Liquor Ammonia : skin and eye burn, throat pain and coughing
- Chlorine water : headache, dizziness, nausea and vomiting
- Bromine water: respiratory tract irritation and possible burn
- Phosphorous pentoxide: corrosive to eyes, skin and respiratory tract
- Benzoyl chloride: Evidences are of lung cancer in humans, skin cancer and reproductive damage.

Always use fuming hoods and close the bottles after use

Some key points discussed in Session VI

Session VI

After the lecture, an impromptu quiz was organized for the students and conducted by Dr. Imran Ahmad. The winners were presented with a small token of appreciation.

2. GLP, an official regulation was created by the FDA in which year?

- A. 1976
- B. 1977
- C. 1978**
- D. 1979

1. This symbol is often confused with a similar-looking symbol. What does it mean?

- A. Oxidizer**
- B. Fire goes here
- C. Heat-sensitive explosive
- D. Flammable, keep away from heat or flame

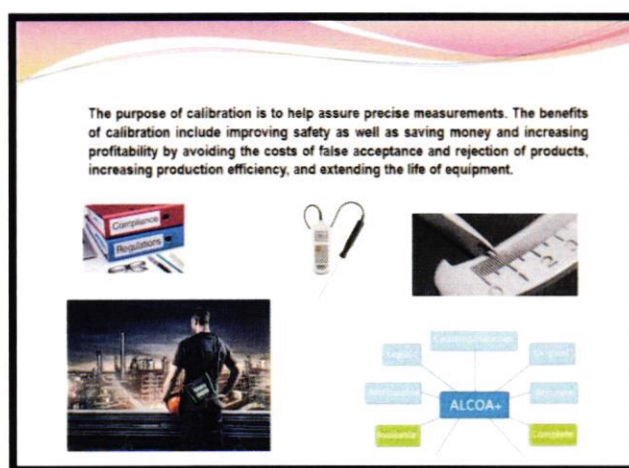

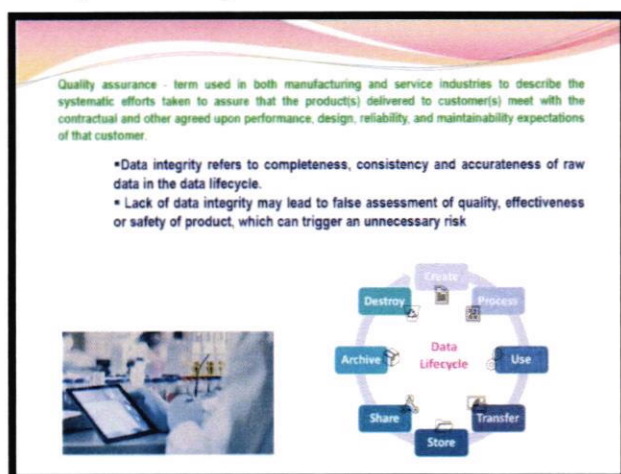

Quiz on GLPs

For the valedictory session, **Professor Vinod Praveen Sharma, Chief Scientist, CSIR-IITR, Lucknow** and **Dr. Shradha Sinha, Vice-President (ACT), North zone** were invited as the Chief

Guest and the Guest of Honour respectively. Professor Seema also joined the valedictory session as the Guest of Honour. The valedictory session began with the formal welcome and presentation of bouquets to the dignitaries. After that, Professor Abdul Rahman Khan, Head, Department of Chemistry welcomed the guests. Dr. Tahmeena Khan, organizing secretary presented the report of the workshop. Professor Seema Joshi lauded the effort of the organizing committee for organizing the workshop on a topic which is very relevant and essential for science students. Professor Shradha Sinha shared the history of the ACT, and its functioning. She also briefed about major activities of ACT and the different instituted by ACT for faculty and students pursuing Chemistry. She further praised the organizing team and also encouraged the faculty members for future collaborations.

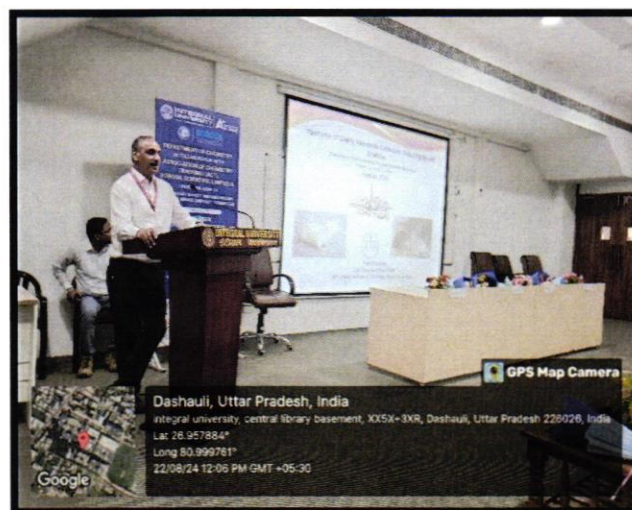

Professor V.P. Sharma through his presentation titled **“Importance of Quality Assurance, Calibration, Data Integrity, and Bioethics”** explained the importance of quality management system for the pharmaceutical industry and the GLP Principles which cover all aspects of a laboratory's daily activity, such as the layout of testing and storage areas to prevent contamination, cleaning and calibration of equipment, handling of test animals, and recording and archiving of test results. He also emphasized that Understanding of the instrument quality control and assurance requirements to avoid inadequate or spurious results due to instrumentation bias whilst improving reproducibility.

Professor V.P. Sharma addressing the audience

After his lecture, the following students were felicitated based on their attendance, performance in the online quiz and the quality and content of the report.

1. Mohd. Amir Ahmad (B.Sc. IC, 3rd Year)
2. Ayeza Sarwar (B.Pharm, 4th Year)
3. Shivika Pandey (B.Pharm, 4th Year)
4. Dhananjay Singh (B.Sc. IC, 1st Year)
5. Asra Fatima (B.Sc. Medical Microbiology, 2nd Year)
6. Maheen Ghazal (B.Sc. Zoology with Chemistry, 1st Year)
7. Aliya Mustafa (B.Sc. Biotechnology, 2nd Year)
8. Nadimullah (M.Sc. IC, 2nd Year)

Felicitation of the students

The dignitaries were presented the mementoes and later on the organizing committee members Dr. Qazi Inamur Rahman, Dr. Iqbal Azad, Dr. Mohd. Imran Ahmad, Dr. Shahla Tanveer and the organizing secretary, Dr. Tahmeena Khan were presented mementoes of appreciation. Dr. Tahmeena Khan, proposed the vote of thanks and the session ended after the certificate distribution to the participants.

Memento presentation

The participants filled out feedback for the overall experience. 157 participants from Chemistry, Pharmacy, Biosciences and Paramedical Sciences attended the programme.
