Industrial Visit for MCA & BCA Final Year Students (5th February, 2025)

***Organized by
Department of Computer Application,
Integral University, Lucknow
in association with
Softpro India, Gomti Nagar, Lucknow***

The Department of Computer Applications, Integral University, organized a one-day industrial visit for the MCA and BCA final year students to Softpro India Pvt. Ltd. located in Gomti Nagar, Lucknow, on 5th February 2025. The Industrial Visit was organized by the Department of Computer Application in association with Softpro India Pvt. Ltd., Gomti Nagar, Lucknow and was coordinated by **Dr. Mirza Ghazanfar Beg** (Assistant Professor), **Mr. Faizan Mahmood** (Assistant Professor) and **Mr. Fareen** (Assistant Professor).

The main objective of this visit was to provide students with real-world exposure to the industrial environment and enhance their knowledge through practical applications. Industrial visits are vital, especially in the fields of Computer Science and Information Technology. They offer students a practical approach by bridging the gap between theoretical knowledge and industry practices. These visits offer a chance to interact with professionals, explore the latest industry trends, and understand the working environment.

The visit was designed to familiarize the students with the operations of Softpro India, its development processes, products, services, and the technologies it utilizes. The day was filled with presentations and interactions with the company's top professionals, which gave students a comprehensive understanding of the company and its operations.

This visit provides valuable insights of the software industry and application to our students of their academic knowledge in real-world scenarios, exposure to the operations and workflows of a leading IT company. This experience will enable students to gain valuable insights into the industry and their understanding of modern technologies and best practices. Industry visits create an opportunity for networking with industry professionals, understanding the latest industry trends and technologies, and working environment of the industry.

Industrial Visit Session Highlights:

The visit began with a presentation by **Ms. Yashi Asthana**, the CEO of **Softpro India**. She provided an insightful overview of the company, its vision, and core values. **Ms. Asthana** emphasized the importance of innovation, adaptability, and staying ahead of industry trends. Her talk gave the students a better understanding of the company's approach to business and technology.

After the presentation, the students were taken on a tour of the company facilities by **Mr. Anaf Farzan** and **Mr. Dharendra Verma**. The tour gave the students an opportunity to see the operational aspects of the company firsthand. They were introduced to the work culture, organizational setup, and day-to-day operations of the company.

The students were then presented with an in-depth explanation of the company's software development processes by **Mr. Najmul Hasan Verma**, and **Mr. Nadeem Agha Jafri**. They explained the methodologies used in software development, such as Agile and Scrum, and demo projects are managed and executed from initiation to completion. The team demonstrated the implementation of cloud solutions, data analytics tools, products that are currently being developed for clients. The use of the latest technology tools and the attention to detail in project execution were evident.

Mr. Aadil Siddiqui introduced the students to the various products and services offered by Softpro India. He elaborated on the company's flagship custom software solutions, and the various industries they serve, including their key clients and market impact.

The next session was a technology presentation by **Mr. Arif Siddiqui**, who shared insights on the latest technologies employed by Softpro India. The presentation covered a range of topics, including artificial intelligence, machine learning, cloud computing, and blockchain, all of which are shaping the future of IT development.

The day ended with an engaging Q&A session hosted by **Mr. Brijesh Mishra**. Students had the opportunity to ask questions and clear their doubts regarding the company's operations, technology stack, and the current IT industry trends. The session was interactive and provided students with valuable industry insights.

The industrial visit to Softpro India proved to be an invaluable learning experience for the MCA and BCA final-year students of Integral University. It provided students with an opportunity to interact with industry experts, gain practical knowledge, and understand the real-world applications of the concepts they have learned in their academic journey. It was a fruitful exposure to the dynamic and ever-evolving world of Information Technology, and it inspired students to strive for excellence in their future careers.
