

**Integral University, Lucknow**

Effective from Session: 2019-20							
Course Code	ED407	Title of the Course	Techniques of teaching	L	T	P	C
Year	I	Semester	II	3	1	0	4
Pre-Requisite	Graduation in any Discipline	Co-requisite					
Course Objectives	The purpose of this undergraduate course is to impart basic and key knowledge of Educational techniques. By using the principal of learning and teaching students may enable themselves a better teacher. After successfully completion of course, the student will able explore subject into their respective dimensions.						

**Course Outcomes**

CO1	Student will be able to know the concept characteristics and important teaching skills.
CO2	Understand the classification of Bloom's taxonomy of Educational Objectives.
CO3	Explain the various merits and demerits of various approaches to teaching.
CO4	Apply various teaching methods in class room teaching.
CO5	Describe uses of ICT in teaching and learning.

Unit No.	Title of the Unit	Content of Unit	Contact Hrs.	Mapped CO
1	concept and objectives of teaching	Concept and characteristics of good teaching. Micro-Teaching: Meaning, Concept and Micro-Teaching Cycle. Important teaching skills – Set-Induction , questioning , Reinforcement , Explanation , Stimulus variation , Black-Board , Illustration with example	8	1
2	Aims and objectives of teaching	Need and importance of defining aims and objectives of teaching in terms of learning outcomes. Bloom's taxonomy of educational objectives. Factors affecting teaching and learning..	8	2
3	Approaches to teaching	Maxims of teaching: Known to unknown, simple to complex, easy to difficult, concrete to abstract, whole to part etc. Merits and demerits of various teaching methods: Lecture, Demonstration, Project, Problem-solving and Discussion, Inductive , Deductive, Heuristic	8	3
4	Innovative teaching	Generation, types and characteristics of computers, Computer fundamentals: CPU, memory, storage devices, input and output.	8	4
5	Programmed learning	Programmed Learning: Meaning, Origin, Linear programming: Meaning and Characteristic Branching programming: Meaning and Characteristic, Mathematics programming: Meaning and Characteristic. Development of Programme Learning Material	8	5

Effective from Session 2019-20							
Course Code	ED408	Title of the Course	Assessment of Learning	L	T	P	C
Year	I	Semester	II	3	1	0	4
Pre-Requisite	Graduation with any Discipline	Co-requisite	Nil				
Course Objectives	The purpose of this graduate course is to impart theoretical and practical knowledge of Assessment. By studying the different types of measurement and techniques and process, students will be able to do measurement and evaluation. Students can draw conclusions and prediction about progress.						

Course Outcomes	
CO1	Understand the concept, importance of Measurement & Evaluation, Levels of Measurement
CO2	Familiarize with new trends and innovations in Measurement & Evaluation
CO3	Know the concept of Statistics and central tendency and its use in education
CO4	Use the different type of tool for measurement and evaluation, characteristics of good measuring tool
CO5	Be acquainted the new reforms in examination system

Unit No.	Title of the Unit	Content of Unit	Contact Hrs.	Mapped CO
1	Concept of Evaluation	Concept of Measurement, Assessment and Evaluation, Need and Scope of Evaluation, Distinction between the following: Measurement, Examination, Assessment and Evaluation, Evaluation Approaches: Formative Summative, Continuous Comprehensive Evaluation; Need, Relevance, Implementation Procedure, Problems	8	1
2	Tools and Techniques of Evaluation	Characteristics of good measuring instruments and factors affecting them, Reliability and Validity of Tools, Tools of evaluation: -Quantitative – Written, Oral and Practical (Types of Questions: Short, Long, MCQs covering all three domains of Learning- Cognitive, Affective and Psychomotor) Qualitative – Observation, Introspection, Projection and Sociometry, Use of these tools for internal assessment & maintaining cumulative records of learners in School	10	2
3	Statistical Methods and Interpretation of Scores	History of Statistics, Need & Importance of Statistics in Evaluation, Graphical Representation, Histogram, Frequency Polygon, PI Charts, Percentile & Percentile rank (Meaning & Uses)	6	3
4	Central Tendency and Normal Probability Curve	Measures of Central Tendency: - Mean, Median, Mode. (Meaning, Characteristics, use only) Normal Probability Curve: -Properties and Uses. (Skewness and Kurtosis (Meaning & Applications)	8	4
5	New Trends in Evaluation: Need and Use	Question bank, Grading system, Online Examination, Open Book Examination, Credit System, Exam on Demand (meaning & uses only)	10	5

## Integral University, Lucknow

Effective from Session: 2019-20				L	T	P	C
Course Code	ED416	Title of the Course	Method of Teaching Economics	3	1	0	4
Year	1	Semester	II				
Pre-Requisite	Graduation with any discipline	Co-requisite	Nil				
Course Objectives	To the know aims and objectives of teaching Economics at School level • To understand the basic subject matter of the economics • To understand the meaning and concept of lesson planning • To understand the resources required for classroom transactions • To select appropriate Instructional Media for teaching commerce at higher secondary stage • To apply different Evaluation techniques in Economics.						

### Course Outcomes

CO1	Students will be able to define Meaning, Nature, Scope and Importance of Economics. Its relation with other Discipline.
CO2	Students will be able to explain various theories in Economics
CO3	Students will be able to understand Need and Importance of Economics Room Co-curricular Activities and prepare lesson plans in Economics
CO4	Students will be able to understand the different types of Instructional Media
CO5	Students will be able to understand Meaning and Purpose of Evaluation and its types.

Unit No.	Title of the Unit	Content of Unit	Contact Hrs.	Mappe d CO
1	Aims, Objectives and Nature of Economics as a Discipline	Meaning, Nature, Scope and Importance of Economics. Relation of Economics with other Discipline. Aims and Objectives of Economics teaching at secondary and Senior secondary stage.	04	1
2	Subject Matter in Discipline	Theories of Demand and Supply, Consumer Behaviour, Theory of Production, Cost Theories Types of Market Structures, Cost and Revenue curves under PCM and Monopoly Theory of Income and Employment, National Income, Budget. Latest Trends in National and International Economics	12	2
3	Lesson Planning and Resources supplementing Teaching-Learning	Meaning, Need and Preparation of Lesson Plan in Economics Need and Importance of Economics Room Co-curricular Activities: Types, Role and Significance of Co-curricular Activities in teaching Economics	06	3
4	Instructional Media	Instructional Media: Concept, Importance and types of instructional Media and their use in teaching of Economics	04	4
5	Evaluation in Economics	Meaning and Purpose of Evaluation, Formative and Summative Evaluation types of Test: Essay type Test and Objective Type Test-Characteristics, Merits and Demerits	06	5

## Integral University, Lucknow

Effective from Session: 2019-20						
Course Code	ED422	Title of the Course	METHODS OF TEACHING BIOLOGICAL SCIENCE	L	T	P
Year	First	Semester	Second	3	1	0
Pre-Requisite	Graduation	Co-requisite	Nil			
Course Objectives	Develop awareness about development in the area of teaching and learning of Biological science Develop skill and competencies in the pupil teacher related to Biological Science at Secondary level. Use various methods and approaches of Biological Science. Develop an understanding of modern technique & approaches for teaching Biological Science. Prepare Unit plan, Lesson Plan in Biological Science. Acquire necessary skills & training for school-based activities such as Science Clubs, Science Fairs, organization of lab etc.					

Course Outcomes	
CO1	Students will be able to understand aims and objectives of Biological Science
CO2	Students will be able to define Teaching Aids
CO3	Students will be able to understand different types of methods.
CO4	Students will be able to define Evaluation
CO5	Students will be able to understand practical aspects of Biological Science

Unit No.	Title of the Unit	Content of Unit	Contact Hrs.	Mapped CO
1	Aims and objectives of teaching Biological Science	Aims and objectives of teaching Biological Science at Secondary School level Need and Importance of teaching Biological Science at Secondary School level.	8	1
2	Audio Visual Aids & Lesson Planning	Unit Planning - - Meaning, need, importance and preparation. Lesson planning - Meaning, need, importance and preparation. Different types of teaching aids - Audio, Visual and Audio - visual aids in biological science.	8	2
3	Method of teaching Biological Science	Lecture & Lecture Cum- Demonstration Method: Merits and Demerits. Laboratory method: Merits and Demerits. Heuristic Method - Meaning and use of Heuristic method in biological science. Merits and Demerits of Heuristic method. Project method: Meaning and Definition of a project. Steps of Project Method, Merits and demerits of Project Method.	8	3
4	Evaluation & Co-curricular Activities	Concept and meaning of Evaluation. Types of test : - Essay type test & Objective type test - Characteristics Merits and Demerits Co-curricular activities in Biological Science- Field trips, Excursion, Science Club and Science Museum.	8	4
5	Practical Aspects of Biological Science	Animal Kingdom A Study of Microscope, General survey of Animal Kingdom's Specimen any eight. Plant Physiology: Demonstrate and understand the phenomenon of osmosis by potato osmoscope. Demonstrate and understand the phenomenon of plasmolysis by cells of beetroot. Practicum Botany Section cutting Glycerin mounts the stained transverse section of monocot and dicot stems. Study of various stages of mitosis in a permanent slide of the root tip of onion. Transpiration by Bell Jar Method.	8	5
