Effective from Session: 2021-22							
Course Code	BM385	Title of the Course	Strategic Business Leader	L	T	P	C
Year	III	Semester	V	3	1	0	4
Pre-Requisite	None	Co-requisite	None				
Course Objectives	This paper underpins the knowledge, skills, and expertise required to assess business strategies and their impact on business performance. The objective is to equip students with the tools & techniques for assessing strategic positions, developing strategic choices, and implementing the chosen strategy through change management.						
Course Outcomes							
CO1	To understand the development of strategic choices and strategic objectives of different types of organizations.						
CO2	To understand the importance of strategic choices based on strategic analysis.						
CO3	To understand the importance of technological developments in the current business world and the importance of risk assessment and the ways to deal with different types of risk mapping.						
CO4	To understand the impact of the finance function within the organization and the use of non-financial performance indicators.						
CO5	To understand the role of disruptive technologies and their impact on organizational culture and performance.						
Unit No.	Title of the Unit	Content of Unit			Contact Hrs.	Mapped CO	
1.	Concept of strategy and internal competencies and resources	Understand & explain the fundamental nature of strategy & strategic decisions in different types of organizations – use of the Johnson, Scholes, and Whittington (JSW) model – strategic position, strategic choices, and strategy action – use of models such as PESTEL, Porter’s Diamond in assessing environmental impact – Assessing competitive position using models like Porter’s five forces and Porter’s value chain -Identify organization's capabilities and competencies in light of the strategic position – assessment of these for sustaining competitive position – use of SWOT model to assess organization’s abilities to access its capabilities.			09	CO1	
2.	Strategic choices and actions	Evaluate the suitability, feasibility & acceptability of different strategic choices – pros & cons of strategic choices for product/market diversification in a globalized environment – pricing strategies including the 7-P model and its impact on competitive position – managing the organization's portfolio & strategies related thereto using the Boston Consulting Group (BCG) matrix – use of Ansoff’s matrix for developing generic strategies – evaluate different choices such as mergers, acquisitions, alliances, joint ventures, and franchises - Implementing strategic plan – aspects of the change management process – challenges of change management – organizing & enabling success – business change life-cycle – Harmon’s process- strategy matrix – improving processes in an organization.			09	CO2	
3.	Use of technology in developing strategic alternatives and risk management	Use of mobile & cloud technology with their benefits & risks – cloud v/s owned hardware & software – use of big data & data analytics for strategy development – use of data analytics for decisions regarding product development, marketing & pricing – explain the value chain of E-business – IT systems security & control - Identification, assessment & measurement of risk – framework of risk management systems – concepts of risk appetite and risk response – strategic & operational risks – assessing severity & probability of risk events – TARA framework for risk responses by management – monitoring of risks management strategies.			09	CO3

Course Code		BM386		Title of the Course		Strategic Business Report				L	T	P	C
Year		III		Semester		V				3	1	0	4
Pre-Requisite		None		Co-requisite		None							
Course Objectives		This paper aims to underpin the expert knowledge and understanding of corporate reporting practices in a globalized environment. The paper includes fundamental ethical & professional principles related to corporate reporting. It also covers the interpretation of financial statements for different stakeholders.											
Course Outcomes													
CO1		Reporting financial performance and financial positions in accordance with accounting & reporting standards.											
CO2		Apply the principles of consolidations in preparing group financial statements including group cash flow statements and accounting for associates & joint arrangements.											
CO3		Understand and apply the accounting treatment for changes in group structures.											
CO4		Understand and apply the accounting treatment of foreign transactions & entities.											
CO5		Appraise and assess the impact of current issues on financial reporting.											
Unit No.	Title of the Unit	Content of Unit									Contact Hrs.	Mapped CO	
1.	Reporting financial performance	Recognition and measurement principles for transactions related to - Leases (books of lessee and lessor) – financial instruments (financial assets, financial liabilities, equity, impairment of financial assets, hedge accounting) – employee benefits (including defined contribution plans & defined benefit plans) impact of current reporting issue in corporate reporting.									13	CO1	
2.	Group financial statements	Definition and application of business combination concept – identifying the acquirer & applying the control principle – the cost of business combination – principles of recognition & measurement of identifiable assets & liabilities in acquisition – a business combination achieved in stages – circumstances when group financials must be prepared and situations in which group accounting can be exempted – group financial statement including cash flows – consolidating joint arrangements & associates.									10	CO2	
3.	Changes in group structure	Acquisition of subsidiary with a view to sale – implications of the loss of control over subsidiary on group accounts – group accounts of a complex group including vertical and D-shaped group, the concept of effective ownership – accounting for acquisition in stages –disposal of entities with or without loss of control.									10	CO3	
4.	Foreign transactions & entities	Principles of identifying the functional currency of a parent entity – Consolidation of a foreign subsidiary & associate – applying the rules for the translation of foreign currency balances into the functional currency of a parent – accounting for foreign assets & liabilities.									05	CO4	
5.	Current developments	Environmental & social reporting – the convergence between national & international reporting standards – the practice of integrated reporting.									07	CO5

Course Code	BM387	Title of the Course	Principles of Performance Management	L	T	P	C
Year	III	Semester	V	3	1	0	4
Pre-Requisite	None	Co-requisite	None				
Course Objectives	The basic objective of this course is to provide fundamental knowledge about performance analysis with management.						

Course Outcomes

CO1	To understand the importance of Strategic Performance Management in the Planning and Control of the organization.
CO2	To understand how strategic objectives are formulated.
CO3	To understand and apply various risk assessment techniques to know the impact of risk and uncertainty on business.
CO4	To understand the role of Performance Management systems in Business Integration.
CO5	To understand the role of Information Systems in Performance Management.

Unit No.	Title of the Unit	Content of Unit	Contact Hrs.	Mapped CO
1.	Strategic Planning and Control Mechanism	Strategic planning & control – measuring progress towards achieving strategic objectives – planning & control at strategic & operational levels – managing conflict between strategic long-term objectives & short-term decisions – use of models such as SWOT, BCG matrix, Porter's generic strategies, and Porter's five forces in strategic planning.	08	CO1
2.	Development and Assessment of Performance Hierarchy	Purpose, structure & content of mission statement, vision statement, and corporate objectives – identify Critical Success Factors (CSF) of an organization and its linkage with mission/vision & objectives – development of Key Performance Indicators (KPI) for measuring & monitoring performance.	07	CO2
3.	External Influences on an Organization	Impact of risk & uncertainty on performance by applying different risk assessment techniques – use of expected value, decision tree, and tools like maximax, maximin, and minimax regret – use of PESTEL to assess the impact of external influence.	09	CO3
4.	Changes in Business Structure and Performance Management	Information needs at different hierarchical levels in a manufacturing & service organization – influence of business process reengineering in improving performance – the role of performance management systems in business integration using McKinney's 7-S structure and value chain – the impact of organization structure & culture on performance.	10	CO4
5.	Designing Management Information Systems	Role of information system in performance management – integration of management accounting information with the use of Enterprise Resource Planning Systems (ERPS) – lean information systems – internal & external sources of management information – the impact of big data analysis – use of technology in recording & processing information such as RFID, unified databases, access controls, data security – use of various management reports evaluating performance, contents & structure of management report.	09	CO5

Course Code	BM 334	Title of the Course	Internship	L	T	P	C
Year	III	Semester	V	0	0	4	2
Pre-Requisite	None	Co-requisite	None				
Course Objectives	Upon finishing the course students will be able to come up with a gain of professional work in industry and research project experience.						

Unit No.	Title of the Unit	
1	Internship	<p>Students are encouraged to undertake internships in suitable industries, consultancies, non- profit organizations, institutions, protected areas, and other relevant sectors to gain first and experience in corporate environmental management and real-world office settings. During the internship, each student will work independently on a chosen topic, guided by an assigned mentor. The internship will culminate in a detailed report that addresses various aspects of corporate culture, focusing on issues encountered within the industry context.</p> <p>The project must include a comprehensive review of the existing literature and provide an in-depth analysis based on the student's personal research. Internship projects are to begin at the start of the semester, and students are required to undertake fieldwork for data collection and surveys to support their findings. The completed project report must be submitted to the University for appraisal and acceptance.</p> <p>Reports must be typed on A4 size bond paper with 1.5 line spacing. High-quality illustrations, charts, and photographs are encouraged to support the report content. The final document should be free from spelling or grammatical errors. Students are required to submit their completed internship report one month prior to the practical examination at the semester's end. The report will be evaluated out of 100 marks, with an external examiner appointed by the Controller of Examinations, Integral University, conducting the assessment. Additionally, students must prepare a PowerPoint presentation to present their findings and key insights from their fieldwork. The fieldwork and report will be evaluated solely by the external examiner, with the final assessment being conducted at the end of the year.</p>

Course Code	BM367	Title of the Course	Financial Appraisal and Management	L	T	P	C
Year	III	Semester	VI	3	1	0	4
Pre-Requisite	None	Co-requisite	None				
Course Objectives	To develop the knowledge and skill expected of a finance manager, in relation to investment, financing, and dividend policy decisions in a globalized environment. The paper also deals with the role of the financial manager in investment appraisal, fund raising and financial risk management.						
Course Outcomes							
CO1	Using advanced investment appraisal techniques& estimating the cost of capital						
CO2	Understanding the cost of capital and capital structure theories						
CO3	Financing of investment including international investments						
CO4	Advanced risk management techniques						
CO5	Mergers and acquisitions						

Unit No.	Title of the Unit	Content of Unit	Contact Hrs.	Mappe d CO
1	Advanced Investment Appraisal Techniques	Merits & demerits of traditional techniques like NPV and IRR – use of modified IRR – the concept of duration and modified duration – adjusted present value method (APV) (impact of financing on project NPV) – use of options theory in evaluating investment projects having embedded real option (using Black-Scholes model) – Assessing Value at risk (VaR model) – multi-period capital rationing (linear programming (only setting up LP problem & interpreting the output) – estimating the project-specific cost of capital using MM model and process Beta and CAPM	8	CO1
2	Cost of Capital	Approaches to capital structure –capital structure theories and their impact on the cost of capital & company valuation – use of MM prepositions in financial management	5	CO2
3	International Project Appraisal	Financial evaluation of international projects – estimating exchange rates using purchasing power parity (PPP) and interest rate parity (IRP) equations – applying Fischer equation – estimating cash flows and estimating the relevant cost of capital – effect of double taxation avoidance agreements – exchange controls & withholding taxes	10	CO3
4	Advanced Risk Management	Role of the treasury in financial risk management – organizing treasury function (centralized v/s decentralized) – transaction, translation & economic risks related to currency fluctuations – currency hedging tools (internal – the currency of the invoice, leading & lagging, matching, netting and external – forwards, futures, options & swaps, money market) candidates are expected to illustrate working knowledge of setting up the hedging – managing interest rate risk through different techniques (internal – matching & smoothing, asset/liability management, external – forward rate agreement (FRA), futures, options, and swaps)	15	CO4
5	Mergers & Acquisition	Principles of Business Valuation - Asset-Based Models - Market-Based Models - Cash-Based Models - Valuation of High Growth Start-Ups& firms with Product Options - Methods of Financing Mergers - Assessing a Given Offer - Effect of an offer on Financial Position and performance	7	CO5
