INTEGRAL UNIVERSITY, LUCKNOW DEPARTMENT OF MECHANICAL ENGINEERING

COURSE: PRODUCT DESIGN AND DEVELOPMENT

COURSE CODE: ME 609

COURSE OBJECTIVES:

- To impart basic concepts of engineering product design and their applications.
- To impart knowledge about idea generation and creativity used in the development of a product.
- To let understand the use of economical aspect in product design.
- To impart concepts related to product life cycle, reliability and ergonomics.
- To impart basic knowledge about literature search, patents, standards and codes.

COURSE OUTCOMES (CO):

After completion of the course, a student will be able to

COURSE OUTCOME (CO)	DESCRIPTION									
CO1	Explained the basic concepts of engineering product development design and their Applications.									
	Also discussed the Design definitions, the role and nature of design, old and new design meth									
	Design by evolution. Physical reliability & Economic feasibility of design concepts.									
CO2	Demonstrate about Product specifications, Tolerance specifications, Taguchi loss factor concepts,									
	Quality functions deployment, Functional specifications of products, Form and function,									
	Development of alternatives.									
CO3	Demonstrate the concept of Product specifications, Tolerance specifications, Taguchi loss f									
	concepts, Quality functions deployment, Functional specifications of products, Form and function,									
	Development of alternatives.									
CO4	Demonstrate the concepts of Holistic product development approaches-Form product concept to									
	decommissioning, Environment requirements, Life cycle design, Product life cycle management									
	systems, concurrent engineering in development of products.									
CO5	Explained about the Internet based approach to product development involving users.									
	Democratization of innovation, connecting products to services, Experience innovation, robust									
	design, Patents and Intellectual properties, product Developments.									

CO-PO MAPPING:
